Meticulous software development professional bringing 2+ years of experience in software design, development and integration with agile methodologies.

EXPERIENCE

Skilrock Technologies
Software Developer ***(Jan 2018-Present)***

Passive Lottery Engine (PLE)
A B2B scratch lottery system which manages all things related to creation of scratch cards to winning and their flows within multiple tiers.

- Developed major API's for modules like game management, inventory management, and order management.
- Implemented business logic and building reusable code for future.
- Implemented Redis Cache using Spring Boot for fetching data efficiently for various modules.
- Optimization of code as well as MySQL queries to make response time optimal.
- Update old java code to java 8 and use SonarQube tool to improve code quality.
- Wrote JUnit Test Cases for Code Coverage.
- Contributed in Deployment process and environment preparation from Scratch to Production.

Retail Management System (RMS)
A centralized system for all kind of account related operations can also be called the heart for other services like PLE, SBS. It manages and maintains user and their wallet. All accounting related operations take place here.

- Developed major REST API's related to the integration of PLE.
- Developed major actions related to Debit Note as well as Credit Note feature.
- Developed various scheduled jobs to settle various transactions.
- Developed various reports as per the requirements.
- Implemented Redis Cache using Jedis.
- Implemented centralized messaging system for transaction notifications to various users.

PROJECTS

- ***Sports Betting System*** — Implemented various APIs for Reserve functionality for placing bets and also worked with third party Api's to manage efficient transactions.

INTERNSHIP

Center of Excellence SGGS, nanded (2017)

- Worked on "Medical Image Processing" using deep learning. My project was "**Brain Tumor Image Segmentation**".
- Worked on **"BRATS 2017"** volumetric 3D images.

TECHNICAL SKILLS

Core Java, MySQL, Python, Data Structures, Algorithms, Struts, Spring Boot, Rest APIs, Design Patterns, Redis, JUnit, GIT, Swagger, JIRA

EDUCATION

Jaipur National University, Jaipur (2014-18)—*BTech in CSE* (81 %)
M.L.S.M College XII(2014)—(67 %)
Jawahar High School X(2012)—(79.6 %)

INTERESTS

- Memes
- Gaming
- Competitive Programming.
- Travelling.
